A lady living in one of the large brass manufacturing cities of Connecticut, writes: "My ten-year-old daughter, Irene, has been troubled with terrible sick headaches and spells of vomiting ever since she was a little tot. Her father thought she would outgrow them, but she didn't. She did not chew her food enough, and what she threw up seemed but half digested. Through the advice of a friend, I began giving her

Ripans Tabules.

She was benefited at once, and after a treatment of one week the trouble ceased, and she has not had a bad spell since."

Since writing this letter, the lady states that she has reduced the dose to half a Tabule a day and the good effect still continues, and she believes that the use of the Tabules may soon be wholly discontinued, for her daughter appears now to be absolutely well.

The New Way

The pain of old-time extraction of teeth is practiced no more upon the wise. The dread of tooth extraction is also unknown when once our "Newest Discovery" has been applied. The operation—if we perform it—is simple, easy, quick and painless—requiring no sleep-producing drug or vapor—and free from every kind of after-effect. After the operation the patient frequently asks "Is it really out?" It takes only an instant to convince.
